---

## PROFESSIONAL SUMMARY

UX/UI Designer with around 4 years of experience designing scalable SaaS and media platforms. Skilled in user research, wireframing, and prototyping, with a strong understanding of frontend development using React. Proven ability to simplify complex workflows and deliver intuitive, scalable, and accessible design solutions across media and SaaS platforms.

---

## TECHNICAL SKILLS

- Design :** Design Thinking, UX Research, User Personas, User Stories, User Journey Mapping, Empathy Maps, Wireframing, Prototyping, User Flows, Information Architecture, UI Design, Interaction Design, High-Fidelity Mockups, Usability Testing, Design Systems, Accessibility (WCAG), A/B Testing, Heuristic Evaluation
- Frontend :** React.js, JavaScript, TypeScript, HTML, CSS, Material UI
- Tools :** Figma, Photoshop, Git, VS Code
- 

## PROFESSIONAL EXPERIENCE

### Madul Tech Software Pvt. Ltd — UX/UI Designer

Hyderabad | Nov 2024 – June 2026

#### Description:

Led the end-to-end design process from user research and ideation to final UI delivery, ensuring cohesive and user-centered solutions. Designed wireframes, interactive prototypes, and high-fidelity interfaces using Figma to effectively communicate design concepts. Redesigned onboarding flow, reducing drop-off by 35% and redesigning key user flows for a better user experience. Applied responsive and accessible design principles to maintain consistency across multiple devices and screen sizes. Collaborated closely with developers to ensure accurate implementation and preserve design integrity throughout the development process.

### F1Studioz — UX/UI Designer

Hyderabad (Remote) | Aug 2022 – Oct 2024

#### Description:

Designed and developed user interfaces for Dinamani (media platform) and Ozonetel (SaaS), delivering intuitive and scalable design solutions. Built responsive and reusable components using React, TypeScript, HTML, and CSS to ensure consistency across devices. Simplified agent dashboard — reduced average task completion time from 4 steps to 2 by simplifying complex workflows and enhancing user experience. Translated business requirements into user-friendly design solutions while maintaining consistency through established design systems.

## PROJECTS HANDLED

### Edpedia — Library Management Module

Role: **UX/UI Designer**

Skills: **UX Research, Wireframing, Prototyping, High-Fidelity UI**

Tools: **Figma, Photoshop**

#### Description:

Designed the complete UX/UI for the school library management system. Created user journeys, wireframes, prototypes, and polished high-fidelity UI screens. Restructured IA; usability testing showed 40% faster task completion and reduced task time. Worked with teachers and admin teams to evaluate usability and refine the final design.

## Dinamani — Interactive News Platform

Role: **UX/UI Designer**

Skills: **UX Design, UI Design, Interaction Design, Responsive Design, Information Architecture**

Tools: **Figma, FigJam**

### Description:

Designed user-centric and visually engaging news experiences for stories, videos, and image galleries. Created pixel-perfect, responsive UI layouts aligned with editorial standards and brand guidelines. Structured intuitive content hierarchies and navigation flows to improve readability and content discovery. Designed reusable UI components to support scalable content publishing and consistent user experience. Collaborated closely with stakeholders and designers to ensure high design fidelity across all screens.

## Ozonetel — Global Call Center Dashboard

Role: **UX/UI Designer**

Skills: **UX Research, UI Design, Dashboard Design, Data Visualization, Design Systems**

Tools: **Figma, FigJam**

### Description:

Designed a modular, data-driven dashboard to visualize real-time agent performance and call analytics. Created scalable UI components and patterns to support complex workflows and future feature expansion. Improved usability by simplifying information architecture and optimizing interaction flows. Worked closely with cross-functional teams to align user experience with system constraints and business goals. Conducted design reviews and iterations to ensure clarity, consistency, and high usability standards.

## EDUCATION DETAILS

### Google UX Design Professional Certificate

**2025**

Google Career Certificates

### Bapatla Engineering College

**2014 - 2018**

B.Tech (Acharya Nagarjuna University), 72%

### Intermediate
